

Products & Services

The Seattle Mariners purchased the Polarzone Elite model Cryotherapy Spa for their Peoria, AZ training facility and Safeco Field in Seattle.

Custom Manufactured Cold and Hot Hydrotherapy Spas

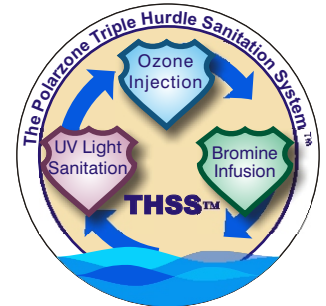

Custom designed self-contained spas in team colors! A user friendly, digital computerized control touch pad provides exact spa water temperatures and programable filtration cycles. All Polarzone spas include our exclusive **Triple Hurdle Sanitation System™** as standard equipment. The **THSS™** has been tested by an independent laboratory* and is proven to instantly kill all viruses, bacteria, and fungi (including **MRSA, VRE, E. Coli, and Athletes Foot**) - Preventing the spread of infectious diseases and keeping your team in the game! Your spa water is always clean - providing a safe hydrotherapy environment for your athletes and training staff. An overflow retrieval system, with automatic refilling, manages water levels - no overflow, "wet floors", and no need to "top off" spa water levels. 250 to 500 gallon models available, holding 4 to 8 athletes at one time - meeting and exceeding your hydrotherapy needs!

Polarzone Water Sanitation Skid Pack For existing pools and spas, including Swim-Ex and Hydroworx) - This self contained water sterilization/disinfection system is designed to retro-fit existing pools and spas. Water is treated with Polarzone's exclusive **Triple Hurdle Sanitation System™**. **THSS™** has been proven by independent lab testing* to instantly kill bacteria and germs that cause infectious diseases (including MRSA, VRE, E. Coli, & Athletes Foot). This unit is fully programmable and will interface with any facilities DDC Energy Management System (allowing for remote control and monitoring).

Custom Pools and Spas Polarzone can design, build, and install Stainless Steel and custom Fiberglass in-ground pools and spas... in any configuration. Some options include powerful swim jets, therapeutic jets in custom configurations, non-skid surfaces and easy entry/exit. All systems come with Polarzone's unique **Triple Hurdle Sanitation System™** insuring your water is clean and safe.

Germicidal Ultra Violet Light for your facility's HVAC systems. Installing Polarzone's Ultra Violet Germicidal lamps in your facility's Heating, Ventilation and Air Conditioning systems duct work will provide safe, healthy clean air for you and your athletes. Ultra Violet Germicidal lamps sterilize your facility's atmosphere of all airborne pathogenic microbes, bacteria, viruses, mold and fungi.

"Sanitation systems you won't find anywhere else!"

Polarzone has effectively addressed the control of infectious disease pathogens in its hydrotherapy systems including MRSA, VRE, E. Coli, and athletes foot fungus. The Triple Hurdle Sanitation System™ (THSS™) is a three-tier water sanitation process that includes:

- Ultraviolet Light Sterilization
- Ozone Injection
- Automated Bromine Infusion
